EFFECTIVE IN THE MEDICAL FIELD:

HCV (Hepatitis C Virus) and HBV (Hepatitis B virus) are serious concerns in the health care environment due to its highly infectious nature and the fact that chronic infection can lead to cirrhosis and cancer of the liver. Hard water performance is not a concern since Hepacide Quat II is ready-to-use and formulated with soft water.

NO WASTE/SAVES TIME AND LABOR:

Hepacide Quat II does not require mixing. Since it has been registered by the EPA in its ready-to-use form, it is not necessary to make up fresh solutions each week. Unlike some concentrated disinfectants that lose their potency once mixed and must be replaced on a regular, sometimes weekly basis, Hepacide Quat II is a stable formula for up to 12 months.
